Looking for a review session for your upcoming final exam? This is the place to find it!

These sessions are hosted by WECS members and volunteers and are open to all students in the session's course. All you have to do is be there and the session's host will walk you through related materials, answer questions you have, and give you a deeper dive into any necessary topics. We are here to help and are delighted to help give you a leg up this exam season!
